PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/530,294	Applicant(s) KATAGIRI ET AL.	
	Examiner Trang U. Tran	Art Unit 2622	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Oath/Declaration

1. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It does not identify the city and either state or foreign country of residence of each inventor. The residence information may be provided on either an application data sheet or supplemental oath or declaration.

Drawings

2. Figure 6 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

4. Claims 1-4 are rejected under 35 U.S.C. 102(a) as being anticipate by the admitted prior art (Fig. 6, page 1 of the Specification).

In considering claim 1, the admitted prior art (Fig. 6, page 1 of the Specification) discloses all the claimed subject matter, note 1) the claimed a scattering film for scattering light within a specific angular range, the light being incident from an angle in a specific angle range, the rear projection display screen having a viewing angle of 40 degree or more in either the vertical direction or the horizontal direction or both the vertical direction and the horizontal direction is met by the lenticular lens 20 which scatters the collimated light (Fig. 6, page 1 of the Specification).

In considering claim 2, the claimed further comprising a protective plate to protect the scattering film is met by the protective plate 3 (Fig. 6, page 1 of the Specification).

In considering claim 3, the claimed wherein the scattering film is a multilayered scattering film including a plurality of films having different scattering angular range from each other, the plurality of films being layered one on another is met by the Fresnel lens 10 and the lenticular lens 20 which scatters the collimated light (Fig. 6, page 1 of the Specification).

Claim 4 is rejected for the same reason as discussed in claim 3 above.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Hareng et al. (US Patent No. 4,040,047) disclose erasable thermo-optic storage display of a transmitted image.

Hanlon (US Patent No. 3,882,536) discloses color information on black and white film.
